

MOOD IN SOCIETY

SML NEWSLETTER
ISSUE 1 | JUNE 2025

Dear Readers

We're so excited to share with you the very first edition of the Social Mood Label newsletter! Time has truly flown. What started in 2021 as a quiet space to reflect on mood, identity, and social issues has grown into a vibrant platform, with over 1,000 supporters on Instagram and TikTok, and a growing list of thoughtful subscribers like you.

Our focus areas are deeply rooted in promoting recreation for well-being, redefining masculinities, preventing violence against women, advocating for children and youth, and unpacking the powerful link between fashion and identity.

This newsletter is our way of staying connected with you, sharing insights, reflections, behind-the-scenes ideas, and the mood shifts we're seeing in society.

Thank you for being here from the beginning; or joining us along the way. We're just getting started!

*With gratitude,
The Social Mood Label Team*
